If, on any of the fund trading days, the total amount of the fund participation share redemption orders is higher than 5% of the total fund value, the Fund founder has the right to extend the maturity, taking into account the request date and demand priority, to pay within 10 working days following the exit instructions. In cases where the maturity is extended, the amount for the participation share redemption order can be paid to the investors in full or at a rate determined by the Fund founder without waiting for the end of maturity, if conditions are available. In such cases that may occur, investors are notified as quickly as possible with the available communication channels.
